

**Research Assistant Position in Sustainable Finance**  
**Indian Institute of Management Ahmedabad**

Indian Institute of Management Ahmedabad (IIMA) is looking for a research assistant (RA) to work on a project that explores how environmental social and governance (ESG) factors affect valuation of firms in Indian financial markets. Prospective candidates must hold at least a Bachelor's degree in engineering, economics, management, or any other field with strong quantitative methodological training. The RA is expected to have knowledge of statistical software such as R and Python, ability to work with textual data, and some familiarity with academic research databases. The work also involves reading journal articles and research reports and synthesising the research findings on topics related to ESG, sustainability, and financial markets. The salary will be commensurate with the academic background and experience. The position will be offered initially for six months and can be extended for another six months based on performance. Masters degree and prior experience in relevant fields and the ability to commit to a full year of assistantship will be favourably considered in the selection process. Interested candidates should apply at this link (<https://forms.gle/C2q39DQiwUxi4w2x5>) by 15 November 2024.
